PHASE 1 – BRAINSTORMING & IDEA PRIORITIZATION

Auto Ticket Classification Using Flow Designer

Project Name: Auto Ticket Classification Using Flow Designer
Leader: P. Muthumari
Members: P. Nagadevi, M. Pathirakali
Date: 29 September 2026
Team ID: SWTID-2026-8889
Maximum Marks: 5 Marks

Step 1: Brainstorm and Idea Listing

S.No.	Team Member	Idea / Suggestion	Category	Group No.
1	P. Muthumari	Automatically classify support tickets based on ticket description	Automation	1
2	P. Nagadevi	Use Flow Designer to create an automated ticket classification workflow	Service Management	1
3	Pathirakali	Automatically assign classified tickets to the appropriate support group	Automation	1
4	P. Muthumari	Use conditions to identify different types of service tickets	Ticket Management	1
5	P. Nagadevi	Automatically update ticket category and priority based on conditions	ServiceNow	1
6	Pathirakali	Send notifications after automatic classification and assignment	Notification	1

Step 2: Idea Prioritization

Group No.	Final Idea	Feasibility	Importance	Priority	Selected
1	Auto Ticket Classification using Flow Designer	High	High	1	Yes
1	Automatic ticket assignment to support groups	High	High	2	Yes
1	Automatic category and priority update	High	High	3	Yes

Selected Project Idea

Auto Ticket Classification Using Flow Designer

The selected idea is to implement an Auto Ticket Classification system using ServiceNow Flow Designer. The system automatically analyzes ticket information such as the short description and description and classifies the ticket based on predefined conditions.

The system can also update the ticket category, priority and assignment group. This reduces manual work and helps route tickets to the appropriate support team.

Project Work Distribution

Milestone	Activity	Responsibility
Milestone 1	Requirement Collection and Analysis	P. Muthumari
Milestone 2	ServiceNow Table/Ticket Configuration	P. Nagadevi
Milestone 3	Flow Designer Flow Creation	Pathirakali
Milestone 4	Classification Conditions Configuration	P. Muthumari
Milestone 5	Ticket Assignment and Routing	P. Nagadevi
Milestone 6	Testing and Error Handling	Pathirakali
Milestone 7	Project Documentation and Conclusion	P. Muthumari

Expected Outcome

The proposed solution will automatically classify service tickets based on predefined conditions using ServiceNow Flow Designer. The system will reduce manual classification, improve ticket routing, update the required ticket information and help support teams handle tickets more efficiently.
